*Asian
Pacific Rim*
PEOPLES

From the sweeping grasslands of Mongolia to the islands of Indonesia, from the bustling streets of Tokyo to the rice fields of Myanmar, the Asia-Pacific Rim is vibrant and diverse. It's also home to over 2 billion people, many of whom are living in spiritual darkness.

The Asian Pacific Rim Peoples Affinity encompasses over one thousand unreached people groups in the countries along the Pacific Ocean Rim. Major religions prevalent in the region include Buddhism, Islam, Hinduism and Animism, although over half of the population is non-religious.

Many cultures in this region deeply value family, community, and tradition. Faithfulness, patience, and creativity are needed to reach them with the gospel. Though the need is great, God is at work, and opportunities abound to join Him. Help is needed in a wide variety of ministries, including teaching English, theological training, sports ministry and more. As you read and learn more about the Asian Pacific Rim Peoples, prayerfully consider how God might be calling you to help further the spread of the gospel among them.

Childcare

Description:

This Cluster or Team training will be a crucial time for missionaries and missionary leaders from the Asia-Pacific Rim to gather for strategic training. Many of these missionary leaders lead not only an IMB missionary team, but also influence a broader network of national and international partners for the sake of multiplying evangelism, discipleship, and church planting efforts among millions of people. This is a much-needed time of equipping, encouraging and planning. Your willingness to help support the families during this time is key to making this possible. We would like a group of adult volunteers who would be able to plan a VBS / summer camp type experience for a group of missionary kids for a one-week period. Time will be given as well for these volunteers to travel and learn more about this important capital city in the Asia-Pacific Rim.

Currently, we do not have a breakdown of ages or numbers of children. As planning begins, we will have more details and can better determine the number of adults that will be needed. Likely, an average of 6 to 8 adults will be needed to help with this childcare / VBS type program.

Prayer Request:

Pray for strong relationships to develop between various SBC churches and field teams. As churches intercede and have hands-on opportunities, pray they will see the value of the time they have invested as lives are changed, believers strengthened, and churches planted.

Description:

Before churches can make long-term commitments to a particular Unreached People Group or a lost city in the Asia-Pacific Rim, it is critical to come out first and survey the land and meet the people. This one-week pastor/mission leader vision trip will be guided by one of our veteran Connections Team members. This team will be made up of 6 to 8 pastors or mission leaders from our various SBC churches. They will have a chance to prayer-walk these lost cities and people group areas. They will also have the opportunity to meet with various IMB missionaries on the ground who are leading the ministry there and find out how their churches can come alongside and help the missionaries plant indigenous churches in the future. This vision trip will open the eyes of all who attend to the real needs on the ground. Time permitting, this trip will allow pastors and mission leaders to visit at least two capital cities in two countries of the Asia-Pacific Rim region.

Group Size:

Prayer Request:
Pray that the camps will be strategic ways to mobilize and train Chinese churches to reach families in their communities. In order to raise up the next generation of Christ-followers and kingdom leaders, may these children and teens experience more of what following Jesus means for them and make personal, life-long faith commitments.

Description:

Partner with a local Chinese immigrant church to develop its children’s and youth ministries, specifically by starting summer camp programs.

Purpose: Our immediate goal is to help these churches reach and keep their children and youth. Many immigrant churches face huge “second generation” challenges as their children grow up in new home countries with language and culture very different from their parents. As a result, these children struggle to stay connected with church as they grow older and see faith as something for their parents and not themselves. Through intentional ministries like a summer camp, children and youth can not only learn but experience more of what following Jesus means for them and make personal, life-long faith commitments.

Our long-term goal is to mobilize and train these churches to reach other families in their communities and raise up the next generation of Christ-followers and kingdom leaders. Volunteers will work alongside adults from the church, giving opportunities for hands-on learning, encouragement, and inspiration as part of this process.

Islam has been the predominant religion for over four hundred years, while many locals are nominal Muslims. In this city, you'll see high-rise luxury apartments next to a squatter village, megamalls beside concrete villages, and expressways above thousands of homeless people. You can enjoy a coffee from any number of cafes and sample almost any Asian cuisine to top it off, all the while mingling with some of the nation's three hundred ethnic groups. It is truly a gateway city to the remainder of this Southeast Asian country.

On your trip, you will pray for the city, evangelize the lost, encourage disciples, and strengthen local churches. Our vision for the city is to have the gospel available for every person and healthy churches in every segment of the city.

SHORT TERM, BIG RESULTS

In just fifty-two days, Nehemiah led his people to rebuild the walls of Jerusalem, restore a nation, and revive a people. It was a short-term project that had eternal results. Inspired by his success, Nehemiah Teams disperse student teams throughout the Asia-Pacific Rim each summer to make an eternal impact using a variety of skills and giftings. There are teams that focus on evangelism, teaching, multimedia, eco-tourism, discipleship, and more. Whatever a student's passion or field of study, God has a place for him or her to help get the gospel to the lost.

VISION

The vision of Nehemiah Teams is to lead students to help open doors and plant churches among the unreached and hard to reach; to help students grow in their walk with the Lord; to help students become World Christians; and to help students deal with a mission calling and find their place in finishing the Great Commission.

Description:

Impact the Chinese with an online testimony of hope! We are gathering testimonies of Chinese Christians. We want to hear your story of hope and how Jesus has transformed your life. Was there a fear or obstacle that Jesus helped you overcome? These testimonies will be used as posts on an evangelistic website for Simplified Chinese readers around the world.

We seek to reach Chinese people, ages 18-32, who do not have a relationship with Jesus or the church. They will not understand terms such as sin, the trinity, or even grace. If you use them, consider adding a simple explanation. Set a goal of 500 characters (Simplified Chinese) for your story. For theological questions, use the Baptist Faith and Message as a guide.

Consider involving your church community! Use this as a way for a small group or Bible study to share their testimonies together. Have everyone in the group write a testimony, share them with the group, and send them for use on the website.

Description:

We are seeking to engage the Unreached People Groups and the Unengaged Unreached People Groups among the islands where we live with the gospel and help foster a sense of Christian community among new believers through ongoing discipleship. Our national partners do most of the ongoing work of discipleship, but volunteers from the USA help open doors for them among these islands and play a vital part in the process. Regardless of the trip length, volunteers will have opportunities to pray for, interact with and engage unreached and unengaged people with the good news, as well as learn more about ministry in remote island areas. Volunteers can also see the variety of ways we engage the people through businesses, community development, and partnering with like-minded national and international sending organizations. Two examples of our community development work in the island villages include a milk goat farm and the processing and selling of cashew nuts. We have been partnering with churches and seminaries through the Embrace Program and through short-term trips for ten years, and have had hundreds of volunteers visit and take part in the ministry.

Prayer Request:

Pray that as these young people learn about serving in another culture, the local island peoples will learn about Jesus, the one true Savior. May the hearts of these youth also encourage local churches to press on in the spiritual harvest field.

Teens on Mission

Description:

The Philippine tourism slogan is “It’s more fun in the Philippines,” so even while you work, you will have fun getting to know the Filipinos! This beautiful island with its hospitable people is a common tourist destination. Most on this island are very religious but are still not sure of their salvation.

As a team, you will help build a local camp and spend time in villages, learning about culture, sharing your lives, and sharing the gospel through testimonies, drama, sports and music.

Your team will spend off days hiking to the top of Hibok-Hibok mountain, which is still an active volcano, swimming at a local beach, in a natural cold spring, or underneath a 160’ waterfall.

The Philippines is still a harvest field so come help with the harvest on Camiguin Island. The Philippines is also becoming a harvest force. Through your ministry, you will help encourage the local churches in making disciples and becoming better senders.

Description:

We are looking for bike-riding enthusiasts who are willing to engage Japanese with the gospel in Tokyo. You will ride bikes daily on paths and key routes, while stopping along the way at strategic locations to engage Japanese. Using activities such as 5-minute English practice, cultural-exchange discussions, and spiritual conversations, you will help determine if the Japanese you encounter are open to learning more about the gospel or are willing to share their contact information so the Tokyo Global City Team can follow up with them. There might also be opportunities to join a “meet up” with Japanese biking or create a “meet up” for Japanese to enjoy. Finally, as you interact with Japanese bike riders, you may begin to build relationships that can be continued from afar after your trip. Please note, we are looking for experienced bike riders, as some days you will be riding 10 kilometers or more.
